Proposal to create a Digital Campus with next generation Wi-Fi Services

Dear Sir / Madam,

We, at Reliance Jio, plan to introduce integrated digital services, including high speed broadband connectivity, communications, entertainment, and cloud services across India.

We are connecting campuses of Educational Institutes through next generation Wi-Fi Services, to provide on the go connectivity to the Students and Faculty members.

As a part of this initiative, we would like to make your institute a Digital Campus by providing our services across locations. We shall set up the whole infrastructure and connect the same with our network. We can also augment your existing Wi-Fi setup by providing a very high speed connectivity, as well as provide tools and services like website, email, cloud storage, etc. to your students and faculty members.

We would like to have your support on the following:

1. Infrastructure support:
 - a. Space and security to Wi-Fi/Small Cell and other relevant network equipment
 - b. Stable power supply for all equipment deployed
 - c. Use of poles, buildings and infrastructure in Institute's campus to facilitate network deployment
 - d. Rights to deploy masts in the event that fibre is not reachable to the campus
2. Access to relevant areas for installation, maintenance and repair
3. Educate and promote the availability of Wi-Fi services to students & faculty

We believe that your esteemed institution would also be enthusiastic to explore possibilities of how we can enrich the lives of the students and your institution. We would request your permission to carry out a detailed survey of the premises so that we can propose the deployment plan.

Thank you for your kind consideration. We look forward to partnering with you taking this initiative further.

Sincere Regards,

Authorized Signatory
